Lawrenceville (Rev. F. R. Scully's charge)

were again thrown into no little excitement

000 if they wanted it. The members of the company are completely ruined financially. They have lost the fruits of years of hard work. There are INTERVIEWS WITH THOSE WHO KNOW also a number of unsecured creditors that cannot hope to realize a cent.

The public preferred creditors of the com

pany are W. N. Robbins & Co. and John

day that they could have borrowed \$1,000,

resterday, over the sudden disappearance Shoup & Co. They will lose little or nothof their pastor, the ex-priest; nothing having in the wreck, but Robert Gumbert, ing been seen or heard of him since last coal operator, may be affected. About four Wednesday night until the receipt of a teledays ago the Joe Williams, at Louisville, was mortgaged for \$20,000 to I. D. Risher. gram from him yesterday afternoon dated was mortgaged for \$20,000 to 1. D. Risner.
It is understood that a levy will also be
made on this boat in a few days.
The company's troubles began with the
building of the Montour Railroad. They Philadelphia, stating that he would not be back for a week, and to get someone to fill His landlady stated to a DISPATCH re-

spent and lost a large amount in its conporter that he had sold his furniture struction. The road proved a failure and left them in the lurch. The company then entered the great coal pool known as the Pittsburg and Southern Coal Company. Coal to the amount of \$400,000 belonging to the pool was sunk at New Orleans last fall, and the Grand Lake. for a time, and would then go on a visit to his mother, who is sick near New Orleans,

Company lost in that disaster one-seventh of the amount, or over \$50,000. Said a riverman yesterday:

It cannot be denied that the big steamer J.
B. Williams was a failure. There was never
enough work for the boat to do. It is capable
of towing 1,000,000 bushels of coal; but it was the church, said: "He had very little to say at the meeting Wednesday night. He of towing 1,000,000 bushels of coal; but it was found to be too large to work in the up river. I am willing to bet that the rich river coal operators are not as wealthy to-day as they were 15 years ago. They have been losing money for a long time, and there are actually no profits to be made in the business. The miners get all the money there is in the trade. They are not willing to work for less; but the time is coming when they will have to, or be out of employment. Natural gas has really helped the coal business for the river men. Their markets are more remote than they used to be, but the prices have kept up.

MAY BE A HITCH.

Some Talk About the Amalgamated Association Scale for This Year. The delegates to the next Amalgamated Association Convention, which will be held here in June, will be elected next month, and they will be instructed as to what wages are desired by the iron workers. At this convention the annual scale for iron and steel workers will be drawn up, and there will likely be a hitch this time. A member of a labor organization, in speaking of the outlook for the settlement of

the wage question, said: The Amalgamated Association will not have as plain sailing as before. Singer, Nimick & Co. are running full and are turning out good work, but their men have no connection with the Amalgamated Association. The Solar Iron Works, the Black Diamond Steel Works and Dilworth, Porter & Co., are all non-union concerns, and there will likely be a big fight before a scale is adopted, and many of the iron men will try to operate their mills without a scale. They seem to be willing to pay the prices demanded, but are opposed to some of the objectionable rules by the Amalgamated Association.

Several members of the organization who were seen believe that the present scale, if presented, will be signed and no trouble is expected.

D. A. 3 in Good Shape. Master Workman I. N. Ross, of D. A. 3, Knights of Labor, is making a tour of all the locals in the district. He visited the members of the order at Butler on Friday, and last night addressed a meeting of L. A.
1623, a mixed local, at Kittanning. Mr.
Ross says the order is growing, and he believes D. A. 3 will have more members than

The Selling Price of Coal. To Run To-Morrow Over the McKeesport The McKeesport and Bellevernon Rail-

road is now open for travel from McKeesport to Elizabeth, and the first trains will eave the Pittsburg, McKeesport and Youghiogheny Railroad depot at McKeesport Mon-Wages Must Come Down. day morning at 7:40. There will be four trains a day each way from the start, and

At the next meeting of the Coal Exchange, composed of river operators, next Friday, a committee will be appointed to hold a conference with a miners' committee on the rate to be paid this season. They claim that it will be impossible to pay the 3-cent rate, as the price of coal in the lower market is lower than ever before.

Death in the River. The dead body of Michael Toole was found at 5 o'clock last evening on the banks of the Monongahela river, below the Braddock Wire Mill, at Braddock. There were no marks of violence on the body. The remains were taken to Williams' undertaking rooms, in Homestead. Toole was about 35 years of age and a metal breaker at the

esting and agreeable conversationalist and his descriptions of the scenes that he had witnessed, the dangers that the party en-countered and the habits of the strange peo-ple of the North were all exceedingly graphs, taken by himself while on the expe-dition, which gave a better idea than any language could of the widely different subday. They say that nothing special was done, and an adjourned meeting will be held in Chicago next Thursday. At this meeting the selling price for the coming season will be fixed.

jects with which his narrative dealt. The story was spiced here and there with aneedotes and enlivened by descriptions of personal adventures, many of them of an amusing nature. The oft-told story of the finding of Greely and the six other famishing survivors, as repeated by the man who bore such a conspicuous part in the rescue, was exceedingly touching and impressive At the close of his remarks Lieutenan Harlow was voted the thanks of the club, and a first rate lunch was then served to all

CALLING LANGSTON A FOOL.

Fred Douglass Says it Won't Do to Put a Colored Man in the Cabinet.

Fred Douglass passed through the city last night en route to Washington. He had been making addresses in Arkansas. Mr. Douglass said:

I am personally acquainted with General Harrison, but I have not visited him since he was elected. I believe in giving a man time to write his message. John M. Langston paid his respects to the President the other day. Lang-

write his message. John M. Langston paid his respects to the President the other day. Langston has conceit enough to think he is as smart as John Sherman, and he wants to go into the Cabinet. He is all for Langston and nobody else. It was he that lost the State of Virginia for the Republicans.

The colored people used to be modest. It requires a man with marked ability to fill a Cabinet position. My people should educate themselves first in statecraft, before they assume to be statesmen. Langston is a fool if he thinks he can discharge the duties of a Cabinet officer. The colored class is only a small proportion of the population, and they haveu't any more right to make demands of such a figh character as a class than the Irish or Germans. It is a great mistake. There will not be a colored man in the Cabinet.

I think it is settled that Mr. Blaine has been offered the position of Secretary of State, but I hope he will decline. I would like to see Mr. Harrison the central figure in the administration. Blaine has too large a following, and in the end it would injure his standing.

ART AND ACTORS.

It is hard to say anything new in regard to the liquor trade, but I have some ideas I would like to, and

expect to ventilate from the lecture plat-

the idea in a nutshell. Suppose you owned a house, and I wanted it. I am bigger than

you, and lick you, thus acquiring the house.

Now is that right? It is war, however. A

gunboat is no argument. A shell is no reason. Dynamite and bombs do not consti-

tute the eternal principle of right, and war

should be too dignified to indulge in petty

squabbles in regard to the fishery question.

Hayti, but we should amicably settle all such questions by arbitration.

versal Peace Congress, to be held there dur-ing the Exposition. They are making elaborate

preparations there for the recention of dele-

gates from all over the world, and I expect to meet a couple of bright French women

who have taken up the work there, though

most of the delegates will be men. After this, I will attend the Peace Commission in

Geneva; so that altogether I shall have

quite a busy and interesting summer of it.

Meanwhile," concluded Miss Belva smil-

ing comfortably, "I will continue my lec-

OPIUM OF NO AVAIL

Sylvia Stilwell, a colored girl living at

No. 158 Water street, received a package of

opium from a friend in Ohio yesterday

morning, and about noon swallowed a large

chunk of the deadly gum, probably not less

than 21 grains, supposing the original

amount to have been one and a half drachms;

About 6 o'clock in the evening, the other

inuntes of the house becoming alarmed, broke open the door of her room and found

her in a stupor, from which they could not

called in, and, after administering the

proper antidotes, aided by vigorous flagella-tions to the soles of her feet by two sturdy

assistants, succeeded in restoring her to consciousness and a realization of the fact

that her attempt to shuffle off had been

.A SERIOUS CUTTING AFFRAY.

A stabbing affray which may result fa-

tally occurred between Hutfield and Harri-

son streets on Forty-eighth street, last night.

Mike Cavanaugh was stabbed three times in

the left side, below the heart, it is thought

From the story as learned by a DISPATCH

reporter last night, it seems that John E.

Welch, who keeps a boarding house on

Forty-ninth street, Luke Welch, Mike

Cavanaugh and Thomas Summerly, early

in the evening left John Stark's

barber shop on Butler street, and, on their

way home about 7:30, went into Jackson's

Harrison streets. Each took a glass or two

of beer, except Cavanaugh, who "does not

drink," but took a couple of glasses of cider.

Plum alley they were accosted by a fellow

named Date Donnelly and a companion,

afterward thought to be a certain Hoonan. One said: "I never knew

an Irishman to be hard up yet. Give

us 10 cents." This led to words, and

Hoonan finally grappled Cavanaugh, and

Donnelly grappled one of the others. Final-

ly. John Welch went, as he said, "to bring

Cavanaugh home," when it is alleged that

Hoonan pulled out a big dirk and stabbed

Cavanaugh in the left side three times, and

Summerly, who was grappling with Don-

nelly, was also slightly stabbed in the fore-

fatally, and others slightly cut.

Thought Fatally.

A LIVELY CONTEST IS EXPECTED.

Explain Their Defeat.

The Primaries in Pittsburg Wards, Also Held Last Evening.

LESS EXCITING THAN THE NORTHSIDE'S The game of politics is always an excit ing one-to those who are holding the cards, and who never seem to know just what is saloon, at the corner of Forty-eighth and "trump" until after the primary or regular election has been held. This is true of the primaries that yielded their last political shuffle last evening; and it is true, perhaps, to an increased degree, Pittsburg's halfdozen caucuses-most of them equivalent to election-and Allegheny's veritable struggles for supremacy are reported below, the

latter getting precedence because they were more closely contested. The cry of fraud at the close of Republican primary elections in Allegheny has not been heard for years, but yesterday there were a number of candidates and their friends making strong assertions in that direction. Several men announced publicly in the City Hall that some people would be arrested for perjury before many days. The city building was crowded last night with friends of defeated candidates and their friends, and the charges made

against the people who had anything to do rith their defeat would fill a big book. The returns from the Ninth district of the Second ward, it is said, looks like a war map, and an effort will be made to throw it out. The only alteration in the returns as announced yesterday, if the district is counted, will be to elect Buente over Winters for Common Council by 4 votes.

WHAT THE COUNT SHOWS. The count in this district was made at 2 o'clock and given to ex-Mayor Wyman, who brought it down to the Health Office, where Delinquent Tax Collector Grier was figuring up the result. This count showed the following result, which, it is claimed, is correct:

burg, the master, on Friday awarded to McCleary the sum of \$73,000. The case is 810; George J. Parkin, 747. Common Council, one in which C. R. Stuckslager, assignee of nine to elect-Cruikshanks, 1,231; McDonald, 1,127; Curry, 1,074; Parke, 1,032; Drum, 991; Hunter, 962; McKirdy, 920; Bell, 903; Winters 885; Buente, 895; Gregg, 877; Miller, 710; Mc-Hendry, 385; Patenbach, 267. For School Directors Messrs. Ford and McMullen were chosen, and for Constable three different returns were received, but

more interesting.

The point reached through the award of the one that will likely be counted is as follows: Lang, 552; Rynd, 549; Ragen, 519. the master means that a final conclusion is This was the closest fight in the ward, and Ragen may contest on account of the re-turns received from the Ninth district. For 19 years prior to the time the action When the returns from the Ninth were received, it is stated, a bottle of ink had been upset on the sheet and some of the numbers are illegible. Several of the marks was brought, McClure & McCleary comshow (so the persons who /saw the sheet state), that four votes were counted five, and, in some instances, six votes were counted five. This will not affect the result

as stated, except in the case of Winters and Buente for Common Council, and, possibly, in the constabulary contest.

A very determined and successful effort was made in the Third ward to defeat Charles W. Gerwig, the reason given being that he worked against the awarding of the electric light contract to the Westinghouse Company. Mr. Gerwig was only defeated, however, by a few votes. HOW HE ACCOUNTS FOR IT.

When the suggestion meeting was held each candidate gave \$3 toward the fund for printing the tickets. These tickets were not distributed in some districts, but in their place were tickets that did not have Mr. Gerwig's name printed on them. The proper fickets were not distributed in some districts until 6 o'clock, an hour before the polls closed. Mr. Gerwig appeared at City Hall last nigh and seemed in good humor. He said: "I have been a candidate for 13 years at almost every election held, and never was defeated in my life before. There is a man that helped to do me up," and he pointed to Robert D. McGonnigle, of the Westing-house Electric Company. Mr. McGonnigle did not deny it, and the two chatted pleas-

His defeat is accounted for in this way:

It was stated, later in the evening, that Mr. Gerwig would be a candidate on the Citizens' ticket on Tuesday, and show some people "where they are wrong," This report, however, could not be confirmed. The complete returns from the Fourth ward were not received until yesterday. They show that William Bader did what has never been done before in a close ward contest. He received almost every vote east. The official result is as follows Select Council—William M. Kennedy, 634; W. K. Fried, 459. Common Council, seven to elect—William Bader, 985; John W. Stacy, 776; U. H. Stouffer, 673; P. Walter, Jr., 651; Jacob Ehman, 615; John Vogler, 594; H. C. Robison, 578; Hiram Landis, 543; John H. Short, 541;

antly together as if nothing had happened

Pavid Martin, 426; Andrew Lysle, 421; Jan V. Prescott, 281. NOT A KICKER. This defeats Hiram Landis, one of the oldest Councilmen in the city. He said last night that he had been fairly defeated,

although the vote was close, and he did not propose to make a contest. The Republican primary in the Fifth ward was held last evening, and the result

sition; Common Council (five to elect)—Adam Ammon, 686; George I. Rudolf, 648; Charles W. Dahlinger, 632; Charles W. Lighthill, 543; J. R. Wolfe, 479; Charles V. Lewis, 442; R. W. Fisher, 333; W. C. Cooke, 261. The first named are, therefore, elected; but Mr. Lewis disputes the count and claims he is the fifth man on the ticket. The Democratic primary in the Ninth Ward resulted as follows: Select Council, M. Hannan: Common Goun-cil, Louis Gerber and M. McCarthy. The citizens of the Third ward met last

night and nominated the following ticket: Select Council, E. Wertheimer; Common Council, Theo. Sriepeke, Sr., Lorenz Lautner, GeorgeJ. Lacher.

CORAOPOLIS HARMONY. Very Large Dose of it at the Suggestion

Meeting Held Last Evening-Only Cauone With a Brass Band. There was exceeding great harmony in Coraopolis last night. It wasn't exactly of the kind of which Dryden sang, and from which he said this "universal frame began," but it was equally effective, a more-than-2to-1 kind. Mr. Alfred McCabe presided, and the occasion was a primary meeting to nominate borough officers.

It soon became apparent that there were incongruous elements in the meeting, and the majority, with a horror of the "smoothing-board" methods which gave the deathblow to the political aspirations of Jimmy Hickey, decided to give the smooth-bore a stab under the fifth rib, by passing a resolution, two or more to one, that anyone might nominate himself if he chose, and that all the names should be printed and voters take their choice of names on the ticket, a method which insures a vast amount of scratching and will force the Reoity charter and the firemen and other city employes in the ward voted against him. In the Second, or middle, district Evans received 172 votes, while his opponent got but 64. In the Third precinct hs got 66, while Eckley received but 26. The majorities received to the control of the contro ceived by Evans in the two latter precincts enabled him to overcome the large'vote against him in the First.

Evans has represented his ward in Councils about 15 years. If he had not received the nomination last night, his friends say they would have run him as a Citizens The Democrats of the ward met last night

in the schoolhouse and nominated for Select Council W. E. Tustin; Assessor, Joseph Connelly; School Directors, Andrew Whit-taker and John Neelan. IN OTHER WARDS. Various Results of the Primaries That Were

Least Exciting.

The least exciting of the primaries held in Pittsburg last evening are reported concise-Fourth ward Democrats-For Select Council. Joseph A. Glesankamp; for School Directors, present incumbents indorsed.

Eleventh ward Republicans - For Ward Assessor, J. P. Willison.

Fourteenth ward Republicans - For Select Assessor, J. P. Willison.

Fourteenth ward Republicans—For Select Concell, John M. Anderson, without opposition; for School Directors (on a lively fight), William Holmes and William McElroy.

Fourteenth ward Citizens—For School Director, Thomas B. Evans, the contractor and builder, who is a thoroughly independent candidate. Mr. Evans served two terms as director, having been elected as an Independent in 1882, and again in 1885 on the Republican licket.

Seventeenth ward Republicans—For Select Council, W. C. McKinle, by 373 majority, Twenty-fifth ward Republicans—For Select Council, Herman Rohrkaste, by 201 majority, Twenty-sixth ward Republicans—For Select Council, Charles B. Dietz; for Alderman, D. J. McGazen by 55 votes against I. N. Leasting McGarey, by 456 votes against J. N. Jarrett' 306. Twenty-eighth ward Republicans—Entire ticket of suggestion meeting indorsed with a will.
Twenty-ninth ward Republicans—For Select
Council, John Bentz (no opposition).
Thirty-fifth ward Republicans—For Select
Council, A. C. Robertson, by a vote of 3 to 1
against all opposition.

IN THE ELEVENTH. The Republicans Object to an Alleged Confederate Candidate. The Republicans of the Eleventh ward

met in the schoolhouse and indorsed H. P.

Ford for Select Council. He had no oppo-

After the meeting a committee on resolutions consisting of George Fleming, Joseph Brown and David W. Semple made the following report:

WHEREAS, The information has come to the citizens of the Eleventh ward that George Schmidt, the candidate for Select Council on the citizens' ticket, has at times stated that he had served in the Confederate army, and the said statement has been verified by reputable citizens of the ward; therefore,

Resolved, That in view of the above facts we deem it but just to the voters of the ward, that the information be known that they be able to vote intelligently at the coming election next Tuesday. lowing report: -

WHEN PARTISANS FALL OUT. Take Heart Again. There is a red-hot fight in Versailles township over the amendment, and the outlook is good for prohibition. The Republicans and Democrats are split up, and the Prohibitionists are taking advantage of it

the amendment will carry with a good majority. PITY THE CONSUMER.

to push a steady canvass.

Old politicians of the township say that

How the Cry for Chenp Necessities Has Resulted in Wholesnie Adulteration Some Frightful Examples. Some apologists for adulteration of food and drink products lay the blame for it to the rage for cheap goods, which, they say, has taken possession of the majority of people, and to such an extent that it is difficult for an honest dealer to made a living in trade; and they argue that the average man cannot be expected to develop sufficient virtue to deliver him at all times from temptation. In theory, the law presumes that, where there is a wrong there is a remedy also, and if this is so in all cases, nerve ought to be sufficient to discover and apply

it. Doubtless adulteration has been prac-

ticed from a very early period, but this country did not suffer very materially from it until a period within 30 years. In 1858 sugars cost very hearly twice as much as they do now; but glucose wasn't in the market-sugars were sweet then. Textile fabrics were dearer then than now; but they were generally honestly made, and buyers gained in wear what they lost in cost, and more too, for less tailoring was required. The high price of coffee during the war led to its adulteration, and people who ceased to buy the green berry and roast it for themselves were subsequently sickened by the suggestion that the ground abomina-tion they were using contained not only chicory root, but also horse liver roasted, said liver generally having been taken from horses that have died of old age or disease. Much tea was popularly supposed to be used once and then put through som

process that restored its color, and then mixed with the fresh article and resold. These are samples of the general adulteration bred by high prices. But meantime adulteration had become a science, and in order to continue the realization of enormous profits, as prices declined, it became the refuge of scoundrels who refused to content themselves with oldtime profits. They doubtless reasoned that they had at least a shadow of excuse from the fact that adulteration had become gen-eral, and if a man who adulterated railway stocks, etc., with water could be held to be a gentleman and a benefactor, why not a man who mixed acid and sulphate of lime and made thereof cream of tartar? true the watering of railway stocks did not directly destroy people's stomachs, but the step from one grade of rascality to another

lower, is easy. In relation to the subject of food adulter tions Mr. Flood, of Arbuckle & Co., said yesterday that there were a number of firms in New York who did nothing else but manufacture adulteracions. They sell pepper and ginger per pound cheaper than it can be bought in its unprepared state. In the case of pepper Mr. Flood would advise people to grind the grains. He cites a case where whisky was sold in Ohio for \$1 50 per gallon when the tax was \$2. The adulteration of candy has been

largely reduced in the past few years. Julius Metzgar, a scissors grinder, a

cused John Swabb of larceny yesterday. When the officers tried to arrest him last night he fought hard, and Devrient, a triend, assisted him. Both men were
